Further information

About me

Participated in the development of projects of varying complexity, from scratch to release, or refinement of an existing application.

Responsibilities:

development of new functionality
refactoring of existing code
task evaluation
participation in corporate meetups with reports

Higher Education - ChelGU majoring in Fundamental Informatics and Information Technology.

At the moment I am studying at ChelGU in the specialty:

Fundamental Informatics and Information Technology (Master)
Thesis defense in June

Applications I have worked on:

- PeopleDo: An analogue telegram app with chat. It was supposed to be released, but the work was stopped due to lack of funding.

- Coolpon: Application for providing discounts and promotions in the form of coupons. Biglion analogue.

<https://play.google.com/store/apps/details?id=en.coolpon.android&hl=en&gl=US>

- Rosreestr: The official application of the Rosreestr of Russia.

Project to be released.

- Taxi Ritm: Application for ordering a taxi in "Taxi Ritm" - one of the largest Moscow transport companies.
